

Are you looking for a university that will support your commitment to educating the next generation of engineers?

Are you interested in bringing engineering practice and new experiential learning strategies into the classroom?

Are you committed to growing participation of women and under-represented minorities in engineering?

Are you seeking to engage in research that makes a difference in the world?

If so, the Department of Engineering Management, Systems, and Technology at the University of Dayton invites you to apply for a tenure track faculty position at the rank of Assistant Professor specializing in Engineering Management and Industrial Engineering Technology to begin on August 16, 2019.

All applicants must have a PhD in Engineering Management, Industrial Engineering, Operations Research, Systems Engineering or closely related discipline by July 15, 2019 or a PhD in Engineering Education by July 15, 2019, with at least one degree in one of the proceeding disciplines or one that is closely related. Applicants must also have at least two years of relevant technical experience which could include industrial work experience or service as an instructor, research assistant or post doc, effective written communication skills, and a record of accomplishment that demonstrates the ability to teach and perform scholarship activities within Engineering Management and Industrial Engineering Technology Programs. For a complete listing of qualifications, special instructions, required documents, and to apply please go to <http://jobs.udayton.edu/postings/27414>. Applications must be received by November 15, 2018.

The Department of Engineering Management, Systems, and Technology offers bachelor's degrees in Electronic and Computer Engineering Technology, Global Manufacturing Systems Engineering Technology, Industrial Engineering Technology, and Mechanical Engineering Technology and master's degrees in Engineering Management and Management Science.

The University of Dayton is committed to the recruitment, hiring and promotion of outstanding, diverse faculty and staff who value its mission and share its commitment to academic excellence in teaching, research and artistic creativity, the development of the whole person, and leadership and service in the local and global community. In support of this commitment, the University is pleased to provide support for spouses of prospective and newly hired faculty. The dual career program serves as a resource and support system and is not intended to take the place of one's own job search efforts. While we cannot guarantee a placement, we will serve as an effective support system for your spouse. Information can be found at [http://www.udayton.edu/hr/employee\\_resources/dual\\_career\\_resources.php](http://www.udayton.edu/hr/employee_resources/dual_career_resources.php).

The University of Dayton, founded in 1850 by the Society of Mary, is a top ten Catholic research university. The University seeks outstanding, diverse faculty and staff who value its mission and share its commitment to academic excellence in teaching, research and artistic creativity, the development of the whole person, and leadership and service in the local and global community. The School of Engineering, with over 100 years of excellence in engineering education and research, is committed to fostering the next generation of engineering leaders and in developing research for the common good.

To attain its Catholic and Marianist mission, the University is committed to the principles of diversity, inclusion and affirmative action and to equal opportunity policies and practices. As an Affirmative Action and Equal Opportunity Employer we will not discriminate against minorities, females, protected veterans, individuals with disabilities, or on the basis of sexual orientation or gender identity.

**EDDY ROJAS, DEAN OF SCHOOL OF ENGINEERING**
