Faculty Position in Engineering Systems Management

The Engineering Systems Management (ESM) Program at American University of Sharjah invites applications for a permanent faculty position at the Professor rank starting Fall 2018. Applicants must be willing to work in a collaborative environment and be committed to pursuing excellence in research, teaching and advising graduate students in the newly established doctoral program in ESM. We seek talented and motivated candidates with a PhD in engineering management or a related area with a focus on performance management and decision making. Candidates with experience and expertise in other areas related to engineering management will be considered. Teaching experience in an American model of higher education and/or in North American industry are highly desirable, as is experience in advising doctoral students. Successful candidates will be expected to develop a productive research program and attract high-quality doctoral students to the new program. A competitive start-up package and an appropriate research infrastructure will be provided.

Interested candidates should fill out an application form and upload the required documents (PDF) using the following link: http://acg-apps1.aus.edu/cen/empapp/apply.php?p=ESM-18-01.

The position is open until filled. Only shortlisted candidates will be contacted. The successful candidate is expected to join preferably in August 2018.

The successful candidate will have an appointment within one of the six departments in the College of Engineering and is expected to significantly contribute to the newly established PhD program in ESM. The ESM PhD program is the first of several doctoral programs planned over the next few years, as AUS embarks on a major expansion of its research and graduate programs with a projected investment of US$ 500M over the next five years.

AUS is located in the Emirate of Sharjah, one of the seven emirates within the United Arab Emirates. The UAE is a highly diversified, technologically advanced and secure country with an excellent reputation for tourism, business and engineering. The university, founded in 1997, is an independent, not-for profit, co-educational institution, serving some 5,600 students of more than 90 nationalities. Further information about AUS and the College can be obtained from https://www.aus.edu/
